

The instant I saw Santa Jeux in person, I said "This is **MY SANTA!**" And, I was thrilled by everything he did. As you can see in the pictures above, we seated him on a beautiful throne underneath many arches of colorful lights in front of a 50' tall Christmas tree made of beautiful silks and lights near the front entrance to our **GLOBAL WINTER WONDERLAND** festival of lights.

He not only greeted all my visitors with his jolly attitude, but before the show was opened every night, he went outside the gates to welcome all those children and their parents into my wonderful show. When they were inside, my visitors thronged to his area so that the lines to see him grew quite long, but he made sure that each person had an equal opportunity to talk with him and get their picture taken. He made my event so much better by being **MY SANTA**.

He did such a great job that I also asked him if he would give the introductions each night at the performances of the **UniverSoul Circus** that was part of our entertainment. He was wonderful and funny in this type of appearance and made all of my customers feel really welcome as they were entertained.

He is the most beautiful Santa I have ever seen and also is very much a special talented entertainer and I am so excited to recommend Santa Jeux as a professional Santa Claus for any future Christmas events.

Below are some pictures of Santa Jeux at the event with some of my guests.
